PROJECTS

Travel Site | [preview](#)

This platform serves as an all-in-one travel booking solution, enabling users to plan and book their trips seamlessly. Whether it's a romantic honeymoon, a family vacation, a solo adventure, or a group getaway with friends, the website caters to all travel needs. Users can book flights, trains, buses, taxis, and accommodations, ensuring a hassle-free travel experience.

- Multi-Destination Booking:** Users can plan trips involving multiple destinations, enhancing flexibility and convenience.
- Real-Time Availability:** The platform provides up-to-date information on flight, train, bus, and taxi availability, ensuring users have accurate data for their bookings.
- Secure Payment Gateway:** Integrated payment solutions allow users to complete transactions safely and efficiently.
- User Profiles:** Registered users can create and manage their profiles, view booking history, and receive personalized recommendations.
- Admin Dashboard:** Administrators have access to a comprehensive dashboard to manage bookings, user data, and platform settings.

Amazon | [preview](#)

Certainly! Here's a comprehensive overview of an e-commerce website inspired by Amazon, built using HTML, CSS, and JavaScript. This platform offers a wide range of products, including electronics like any product with features such as home delivery and a user-friendly shopping experience.
